

Growth Opportunities in the Global Composites Market

Published: May 2016

Trends, opportunities and forecast in this market to 2021 by fiber type (fiberglass, carbon fiber, aramid fiber), resin type (thermoplastic, polyester, epoxy, vinyl ester, phenolic, other thermoset), product form (CFRTP, short fiber TPs, LFRT, GMT, SMC, BMC), market segment (aerospace, construction, wind energy, marine, others), manufacturing (hand lay-up, spray-up, pultrusion, SMC/BMC, prepreg lay-up, injection molding, others), and region

Table of Content

Table of Contents

1. Executive Summary

2. About the Composites Industry

- 2.1: What is the Composites Industry?
- 2.2: Characteristics of the Composites Industry

3. Competitive Analysis between the Steel, Aluminum, Plastics, and Composites Industry

- 3.1: Competitive Analysis
- 3.2: Plastics Industry Overview
- 3.3: Steel Industry Overview
- 3.4: Aluminum Industry Overview
- 3.5: Composites Industry Overview

4. Global Reinforcement Market

- 4.1: Functions of Fibers and Resin Materials in Composites
- 4.2: Global Composites Market by Fiber Type
- 4.3: Global Market Size for Reinforcements
 - 4.3.1: Glass Fiber Market Size by Product Form
 - 4.3.2: Carbon Fiber Market by Product Form
 - 4.3.3: Aramid Fiber Market
- 4.4: Market Leaders
 - 4.4.1: Glass Fiber Market Leaders
 - 4.4.2: Carbon Fiber Market Leaders
 - 4.4.3: Aramid Fiber Market Leaders

5. Global Resin Market

- 5.1: Types of Resins
 - 5.1.1: Thermoset Resins for the Composites Industry
- 5.2: Price and Weight Distribution of Various Ingredients in Composites
 - 5.2.1: Polyester Resin Applications
- 5.3: Resin Market

6. Global Composites Market by Material Type

- 6.1: Advanced Composites Market
- 6.2: Raw Materials Market

- 6.3: Thermoset and Thermoplastic Composites Market
- 6.4: Thermoplastic Composites Market by Product Form
 - 6.4.1: LFRT or LFT (Long Fiber Thermoplastic Composites)
 - 6.4.2: GMT
 - 6.4.3: Continuous Fiber TPCs
- 6.5: Composites Market by Molding Compounds

7. Global Composites by Market Segment

- 7.1: Global Composites Market by Segment
- 7.2: Driving Forces for the Use of Composite Materials
- 7.3: Key Requirements in Various Market Segments
- 7.4: Transportation Industry Market Outlook and Trends
 - 7.4.1: Automotive Industry Challenges
- 7.5: Aerospace and Defense Industry Market Outlook and Trends
- 7.6: Construction Industry's Market Outlook and Trends
 - 7.6.1: Composites in Bridge Applications
 - 7.6.2: Challenges in Bridge Applications
 - 7.6.3: Non-Bridge Applications
- 7.7: Pipe and Tank Industry Analysis
- 7.8: Marine Market Outlook and Industry Trends
- 7.9: Electrical and Electronic Industry Outlook
 - 7.11: Wind Energy

8. Global Composites Market by Manufacturing Process

- 8.1: Global Composites Market by Manufacturing Process

9. Trends and Forecast

- 9.1: Industry Challenges in Recent Years
 - 9.1.1: Energy Cost Squeeze
 - 9.1.2: Challenge to the Glass Fiber Industry
 - 9.1.3: Resin Producers are Relatively Safe
 - 9.1.4: Challenge to Fabricators
- 9.2: Trends in Global Composites Industry
 - 9.2.1: Market Trends by Region
 - 9.2.2: Market Trends by Application
- 9.3: Trends in North American Composites Industry
- 9.4: Trends in European Composites Industry
- 9.5: Trends in Asian Composites Industry
- 9.6: Composites Industry Forecast
- 9.7: Forecast for North American Composites Industry
- 9.8: Forecast for European Composites Industry
- 9.9: Forecast for Asian Composites Industry
- 9.10: Forecast for Composites Manufacturing Processes

10. Regional Analysis

- 10.1: Composites Shipment by Region
- 10.2: Composites Consumption by Country
 - 10.2.1: Shipment in North American Countries
 - 10.2.2: Shipment in European Countries
 - 10.2.3: Shipment in Asia Pacific Countries
- 10.3: Composites Applications by Region
 - 10.3.1: Composite Markets in North America
 - 10.3.2: Composite Markets in Europe

11. Value Chain Analysis and Industry Leaders

11.1: Value Chain Analysis

11.2: Industry Leaders

11.2.1: Industry Leaders in Material Supplier Category

11.2.2: Leaders in End Use Markets

12. Material and Technology Needs for the Future Composites Industry

12.1: Need for Low-Cost Raw Materials

12.2: Resins and Fiber Materials with Higher Strain to Failure

12.3: Better UV and Chemical Resistant Materials

12.4: Low-Cost Manufacturing Process for Large and Small Parts

12.5: Need for High Temperature Composite Material

12.6: Low Shrinkage Materials

12.7: Low Wear and Tear Composite Materials

12.8: Damping and Noise Resistance Materials

12.9: Optimal Resin and Additive Systems for Closed Molding Operations

12.10: Products Manufacturability and Affordability

12.11: Flexible Gelcoats

12.12: Flame Resistant Materials

12.13: Self Healing Material

12.14: Manufacturing Process with Lower Processing Time

12.15: Flexible Honeycomb Core

12.16: Fabric Wrinkling

12.17: Method of Cutting Wet Prepregs

12.18: Need for Moisture Resistant Honeycomb Core

12.19: Fast Cure Epoxy Resin

13. Innovations in Composites Industry

13.1: Novel Water-Insensitive Curing Systems for Bio-Fiber Reinforced Composites

13.2: New High Tensile Carbon Fiber

13.3: New Type of Meta-Aramid Fiber

13.4: New Composite Toughening System

13.5: New Black Para-Aramid Fiber

13.6: PulStrand 4100 Roving

13.7: New Thermoplastic Textile Prepreg Flame-Retardant, High-Modulus

13.8: Novel Nonwovens to Increase Composite Functionality

13.9: Advalite - Resins for Composite Applications

13.10: Owens Corning has developed Performax Roving offer performance and productivity benefit

13.11: Johns Manville Introduced ThermoFlow 636, a New Chopped Strand Glass Fiber

13.12: Dow Introduced New Polyurethane Series Named VORAFORCE TW 1100

13.13: Cytec Industrial Materials has Developed New Prepreg Named MTM 23 for Automotive

13.14: PPG Introduced New Chopped Fiberglass

13.15: Momentive Introduced EPIKOTE Binder System 620 for Automotive

13.16: New Two Part Epoxy Resin System by Cytec

13.17: Cytec Industries Introduced Vinyl Ester Prepreg for Automotive

13.18: Hexcel Introduced Epoxy Prepreg HexPly M77

13.19: AOC Developed a Low-Density Sheet Molding Compound

13.20: PremierUV™-Sheet Molding Compound Developed by The Composite Group

13.21: Core Molding Technologies, Inc. Developed Airilite™ Ultra-Low-Density SMC

13.22: Globe Machine Manufacturing Co. Introduced Second Generation Autoclave Processing Technology

13.23: Magnum Venus Introduced a Mix Gun Talon-X with Enhanced Features

 Table 3.2: Plastic Materials Shipment for US Domestic Market

Chapter 6. Global Composites Market by Material Type

Table 6.1: Global Composites Shipment by Raw Material Type in 2015 (Source: Lucintel)

Chapter 7. Global Composites by Market Segment

Table 7.1: Impact Properties of Some Selected Materials.
 Table 7.2: Application of Composite Materials in the Automotive Industry
 Table 7.3: Emerging Automotive Applications for Composites Material
 Table 7.4: Segmented US Light Vehicle Sales (in Thousands of Units)
 Table 7.5: Applications of Composite Materials in Aerospace Structures
 Table 7.6: Evolution of Composite Material Applications at Airbus
 Table 7.7: Aerospace Structures Made Of Composites
 Table 7.8: Selected Materials and Processes for the Airbus A380
 Table 7.9: Composite Components in Aircraft Applications
 Table 7.10: Structural Fabric Repair System

Chapter 8. Global Composites Market by Manufacturing Process

Table 8.1: Ranking of Manufacturing Processes Based on Annual Shipment
 Chapter 9. Trends and Forecast
 Table 9.1: Market Trends (2010-2015) in Global Composites Shipment
 Table 9.2: Average Growth Rates for One, 10, 20, 30 and 40 years in the US Composites Industry
 Table 9.3: Average Annual Growth Rates in Various Regions of the Global Composites Industry
 Table 9.4: Market Size and Annual Growth Rates in Various Segments of Global Composites Industry (Source: Lucintel)
 Table 9.5: Market Size and Annual Growth Rates During Last 5 Years (2010-2015) in Various Market Segments of Global Composites Industry (Source: Lucintel)
 Table 9.6: Market Trends (2010-2015) in North American Composites Shipment
 Table 9.7: Average Annual Growth Rates During last 10, 20, 30, and 40 years (1970-2015) in Various Market Segments of the US Composites Industry (Source: Lucintel)
 Table 9.8: GDP and Unemployment Rate for Leading Countries (Source: The Economist)
 Table 9.9: Interest and Exchange Rates for Leading Countries (Source: The Economist)
 Table 9.10: Forecast for Select Markets
 Table 9.11: Average Annual Growth Forecasts in Various Regions of the Global Composites Industry (2016-2011)
 Table 9.12: Market Size and Annual Growth Forecasts during the Next 5 years (2016-2021) in Various Market Segments of the Global Composites Industry (Source: Lucintel)

Chapter 10. Regional Analysis

Table 10.1: Average Annual Growth Rates in Various Regions of the Global Composites Industry
 Table 10.2: Ranking of Top 10 Countries of World in Terms of Composites Shipment
 Table 10.3: Ranking of Five Leading Countries in Europe in Terms of Composites Shipment

Table 10.4: Ranking of Five Leading Countries in Asia Pacific in Terms of Composites Shipment

Table 10.5: Ranking of Five Leading Applications in North American Composites Industry

Table 10.6: Ranking of Six Leading Market Segments in the European Composites Industry

Table 10.7: Ranking of Five Leading Applications in Asia Pacific Region

Chapter 11. Value Chain Analysis and Industry Leaders

Table 11.1: Financial Results of Industry Leaders in the Material Supplier Category

Table 11.2: Financial Results of Industry Leaders in Various Market Segments

Chapter 12. Material and Technology Needs for the Future Composites Industry

Table 12.1: Impact Properties of Some Selected Materials

Table 12.2: Maximum Continuous use Temperatures for Various Thermosets and Thermoplastics
